

Construction & Renovation Surveys

Loans made for construction or renovation purposes may require a survey of the property to ensure the improvements are within the property set-back lines, do not encroach on easements, etc. It is imperative the appropriate survey fee be disclosed to applicants on the initial Loan Estimate. Construction survey fees can vary widely by geographic location. The Flagstar Disclosure Management team will use the survey fees listed below when preparing the initial Loan Estimate and subsequent disclosures.

State	Quoted Survey Fee
California	\$2,500
Minnesota	\$1,025
New Jersey	\$1,900
New York	\$1,900
Oregon	\$2,000
Texas	\$1,375
All other states	\$750

If a construction survey is not needed for a particular transaction or the actual cost of the construction survey to Flagstar is lower than the fee amount collected at closing, we will refund the excess fee amount to the borrower by check within 30 days of construction/renovation closeout.
