

Use the tables below to determine if a product change on a locked loan will result in worst case pricing.

- Product changes from one cell or table to another are subject to worst case pricing regardless of change between Fixed and ARM.
- Product changes between First and Second Lien position are worse case priced, and may require new loan registration.
- Product changes from State Restricted/Community Seconds to Conforming/Government/Non-conforming are **priced to current market**.

Please note that guidelines are subject to change without notice.

CONFORMING/GOVERNMENT PRODUCTS
