

A Short Form Title Policy is a shorter title policy issued on the ALTA form for "Short Form Residential Loan Policy" at closing, and has the same level of coverage as a traditional long form policy. The difference is that there is no trailing Final Title Policy to track and forward to Flagstar. The Short Form Title Policy **can be** issued at closing, and may be forwarded at the same time as the closing package, **uploaded via paperless upload or emailed to FinalDocuments@flagstar.com**; however, please make sure **if you are sending it separately in paper format, please make sure it** is sent under separate cover using the ***Final Documents Transmittal Form, Doc. #3668*** and forwarded to the Final Document Department directly **using the instructions in the form**.

Most importantly about Short Form, it must be delivered on the ALTA form "Short Form Residential Policy". This guarantees you receive all the coverages afforded under a true Short Form Policy. They will include all applicable endorsements. This will ensure that no matter what it is technically called in your region, you will be completely protected, and not subject to any further requirements from Flagstar.
